**The Association of
Energy Engineers**
Welcomes You...

DIRECTED BIOGAS AND FUEL CELL RENEWABLE ELECTRICITY GENERATION OPPORTUNITIES AND CASE STUDIES

**Ken Rosentreter
Vice President
OHR Energy**

As Fuel Cell distributed generation systems are becoming the *go to technology* for many businesses, municipalities, counties & sanitation districts located in California. The clean, renewable & cost effective power source provides an alternative to purchasing power from the grid. Until recent “directed biogas” opportunities, fuel cell customers without a renewable fuel source onsite did not have the ability to create renewable electricity with the fuel cells. “Directed biogas” allows for biogas from alternate sources to be clean, upgraded to NG standards & injected into the pipeline for use at a fuel cell site located in CA.

Ken Rosentreter, Vice President of OHR Energy, has been working in the energy sector for the last 10 years. He is responsible for the development & implementation of OHR Energy's renewable energy systems. Ken holds a BS in Economics from the University of California, Los Angeles & a Master in Real Estate Development for the University of Southern California. He holds a California Contractors License with A & B classifications.

Stevens Steak House

5332 Steven's Place, City of Commerce, CA

See reverse side for a map and the reservation request form.

To Make Reservations

Fax this page to: (562) 497-2990 or use one of these other options:

Tel (562) 497-2999
 E-mail signup@aesocal.org
 Mail AEE % P2S Engineering
 5000 E Spring St Ste 800
 Long Beach, CA 90815

Cost :	With Reservations	Without Reservations
Chapter Member	\$25	\$30
Non-Member	\$30	\$35

Name _____

Company _____

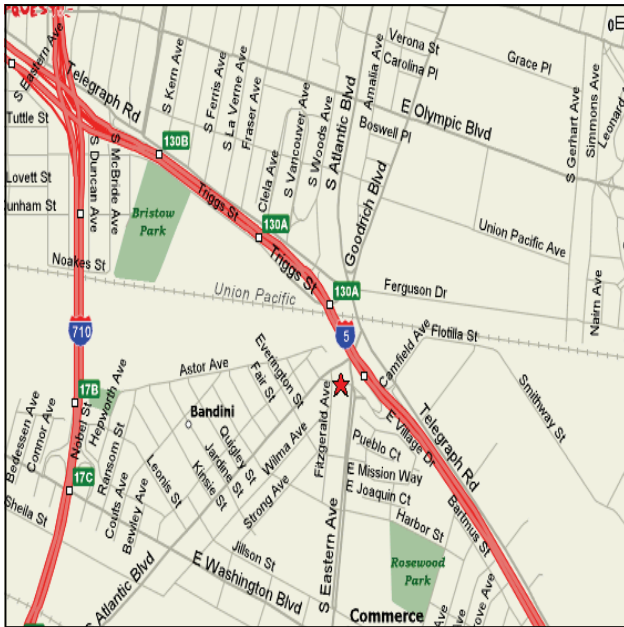

Phone _____ E-mail _____

Note: After making a reservation, if you find that you cannot attend, please cancel your reservation 3 days prior to luncheon date to avoid being invoiced for the meal cost. Thank-you!

The Southern California Chapter of the Association of Energy Engineers is a 501 (C) 6 tax exempt non-profit organization, incorporated in the state of Georgia, and its Federal TIN is 91-2061992
